| #  | Common Name                | Scientific Name                                    | Ecol. Status | Abundance                                    | References |
|----|----------------------------|----------------------------------------------------|--------------|----------------------------------------------|------------|
| 1. | Bar-tailed Godwit          | <i>Limosa lapponica</i> <i>baueri</i>              | Sum Mig      | Seen on mud flats.                           | 2,3,       |
| 2. | Bar-shouldered Dove        | <i>Geopelia humeralis gregalis</i>                 | Vis?         | Recorded,                                    | 1,         |
| 3. | Golden-headed Cisticola    | <i>Cisticola exilis</i> <i>diminutus</i>           | Res bre      | C in savanna and other grasslands < 1000+ m. | 1,3,       |
| 4. | Varied Honeyeater          | <i>Lichenostomus versicolour</i> <i>intermedia</i> | Res bre      | MC-VC.                                       | 1,3,       |
| 5. | White-breasted Woodswallow | <i>Artamus l. leucorhynchus</i>                    | Res bre      | LC-MC                                        | 1,3,       |
| 6. | Torresian Crow             | <i>Corvus o. orru</i>                              | Res bre      | P,                                           | 1,3,       |

### KEY

#### Ecological status

**End** = Endemic to Island unless otherwise stated, **Res bre** = Resident breeder, **Res** = resident ie breeding not proven or not likely. For seabirds it means they have or should be found in that area: note other refs. **Vag** = Vagrant, **Res/mig** = Part of population migratory, **Sum mig** = Summer migrant, **Win mig** = Winter migrant, **Spr/Aut mig** = Passage migrant in Spring and Autumn, **Intro** = Introduced.

#### Abundance

**R** = rare, **S** = scarce, **UC** = uncommon, **MC** = moderately common, **LC** = locally common, **C** = common, **VC** = very common, **A** = abundant, **P** = present.

**Colour coding** applies only to one species on a particular list. eg. An abundance comment in **red** for the Brown Booby refers to the Ref # in **Red** for that species only.

**Alternate Island Names & alternate common Bird Names are recorded in two separate spreadsheet files.**
